Printing with DocumentsCorePack for Microsoft Dynamics 365 and PowerApps

Clint Higley, Michael Dohr

Two steps to print with DocumentsCorePack

1. Configure & Deploy Printer

Define and expose local or network printers to be accessible from the cloud

DCP Print
Service

DCP Print
Application

2. Print

From Dynamics 365

From PowerAutomate

From Canvas Apps

1. Configure and deploy your printer

Print Service

VS

Print Application

- **for network & shared printers**
- Support for multiple printers
- High print volumes
- Advanced service management
- Enhanced logging
- **Deployment on dedicated print server recommended!
(access and availability)**

- **for personal, non-shared printers & personal use**
- Low print volumes
- Logging capabilities
- **Deployment on user's individual device**
