

mscrm-addons.com
Your company for MS-CRM ADD-ONS!
Official Partner

Marc DiGiorgio
Managing Director

TekStack

The company focuses on key processes in lead management, sales, project delivery & support. They provide best practices out of the box and give customers what they need from one single tool, displacing expensive systems.

Marc DiGorgio from TekStack is one of our valued partners – read about their experiences.

1 The benefits of the partnership

“We at TekStack embed DocumentsCorePack into our PowerApps as a replacement for the native Word templates and SSR report writer. Our use cases include documents like invoices, order forms, proposals, and status reports. The efficiency and effectiveness that comes with being able to generate and process documents in one solution are outstanding.”

2 The impact on your organization

“We get the document generation and processing functionality we need to fulfill our invoices, order forms, proposals, and status reports without the need for in-house development or ongoing product support. The partnership with mscrm-addons.com is very important to us and we can always count on support and knowledge from their team.”

3 How mscrm-addons.com benefits your customers

“It is impressive for our customers to see what can ultimately be achieved with a strong document generation tool within Dynamics 365. DocumentsCorePack satisfies customers’ use cases for document generation and processing without the need for internal custom development.”

4 Key factors when working with third-party providers

“We had our own custom solution for document generation purposes, but issues with reliability and Online-CRM compatibility drove us to look for ready-made 3rd party solutions. mscrm-addons.com provided exactly what we needed; cost-effective and working solutions, complemented by outstanding service to partners. I have personally always enjoyed working with mscrm-addons.com; their products complement some of the gaps in the Dynamics 365.”
